SKILLS

Python

PostgreSQL

Airflow

Terraform

AWS

EXPERIENCE

Data Engineer, Northwind Traders (Austin, TX) 2020 to present

- Built Airflow pipelines that load 2 TB of order data every night into PostgreSQL with automated backfills.
- Reduced warehouse build time from six hours to 55 minutes by partitioning the largest tables.

Analyst, Tailspin Toys 2017 to 2020

- Automated the monthly sales report that three teams used to build by hand.
